

MARCOS RODAS

Project Coordinator | Administrative Engineer | Full-Stack Developer

Guatemala | +502-54475090 | rodas807@gmail.com | LinkedIn Profile

PROFESSIONAL SUMMARY

Results-driven professional with a multidisciplinary background in **Administrative Engineering** and **Software Development**. I specialize in bridging the gap between technical complexity and business strategy by **translating intricate architectures into clear, actionable roadmaps for high-level stakeholders** such as USAID and the U.S. Department of State. Recognized for high adaptability in volatile environments and a commitment to delivering high-quality products through the strategic use of AI and data intelligence.

CORE COMPETENCIES

- **Stakeholder Management:** Expert in high-impact communication and active listening; simplifying complex technical jargon for non-technical decision-makers.
- **Data Intelligence & BI:** Advanced SQL (Relational & Non-Relational), **Python for Data Science**, Power BI, and Tableau.
- **Full-Stack & AI Integration:** JavaScript (Node.js, React), PHP, and Git. Expert in leveraging **Generative AI** for workflow automation and high-precision delivery.
- **Operations & Cloud Architecture:** Agile/Scrum, IT procurement, and cost-effective cloud infrastructure design to maximize resources.

PROFESSIONAL EXPERIENCE

IOM-ROOTS (International Organization for Migration)

Aug 2023 – Present

Project Coordinator – Digital Platforms

- **Modernized public service delivery** for MINTRAB and IGM as measured by the successful approval of digital proposals by **USAID** and the **U.S. Department of State (DoS)** by translating complex technical requirements into strategic roadmaps.
- **Ensured 100% project continuity within volatile environments** as measured by consistent milestone achievement by rapidly adapting development priorities to meet evolving government regulations.
- **Increased operational efficiency** across Finance, Procurement, and Programmatic departments as measured by a reduction in internal bottlenecks by developing custom digital automation tools.
- **Enhanced product quality and delivery speed** as measured by technical output KPIs by integrating **AI-driven automation** into standard workflows.
- **Optimized infrastructure sustainability** as measured by reduced operational costs by architecting cloud solutions that prioritize resource efficiency and cybersecurity.

IDC Los Tres, SA

Feb 2013 – Jul 2023

Operations Manager

- **Reduced shipping errors by 30%** as measured by order fulfillment accuracy by re-engineering administrative, logistical, and HR workflows.
- **Increased team productivity** as measured by a significant reduction in staff turnover by designing and implementing leadership development programs.
- **Maintained 100% operational uptime during peak demand crises** as measured by service excellence standards by executing strategic risk mitigation plans.

Calzado Matrix de Guatemala

Apr 2007 – Dec 2012

Regional Sales Supervisor

- **Exceeded regional revenue targets of Q2 Million/month** as measured by consecutive goal achievement across 22 branches.
- **Improved sales force effectiveness** as measured by store-level KPIs by mentoring branch managers and training teams in high-impact customer service.

EDUCATION

- **B.S. in Administrative Engineering** | *In Progress – 5th Semester* | Universidad Galileo
- **Associate Degree in Software Development** | Universidad Galileo
- **Industrial Bachelor / Computer Technician** | Instituto Tecnológico Federico Taylor

PROFESSIONAL CERTIFICATIONS

- **Project Manager Certificate** | Google / Coursera
- **Front-End Developer** | Oracle Next Education / Alura
- **Data Analytics** | *In Progress* | Google / Coursera
